OBJECTIVE

Seeking a summer mechanical engineering internship that offers real-world impact and a strong learning environment to build on hands-on rocketry, CAD, and fabrication experience.

EDUCATION

B.S. Mechanical Engineering — Texas A&M University, College Station, TX · Expected May 2030

Associate of Science, Engineering Academy — Austin Community College · Aug 2026 – Present

Texas A&M Engineering Academy track: Python, engineering fundamentals, advanced math.

High School Diploma — Georgetown High School, Georgetown, TX · May 2026

EXPERIENCE

Busser / Runner — Goldbird Enterprise, Georgetown, TX · May 2022 – Present

- Consistently deliver a smooth, enjoyable guest experience in a fast-paced restaurant.
- Work well as part of a group, contributing to a substantial increase in team tips.
- Thrives in face-to-face customer contact and fast-changing social settings.

PROJECTS

Car Restoration Project · May 2023

- Repaired the cooling system and headlights, including wiring and soldering.
- Repainted the front hood — sanding, priming, and finish work.
- Wired a complete new sound system, including a 12" subwoofer.
- Saved roughly \$2,000 by doing the work independently.

ACTIVITIES & LEADERSHIP

Students for the Exploration and Development of Space (SEDS) — ACC Chapter, Austin, TX

- Member of an international student org promoting space exploration through engineering projects.
- Working toward an L1 high-power rocketry certification.

Systemsgo Rocketry Club — Georgetown High School · May 2023

- Built an L1-certification-earning rocket with a team of three; reached ~420 mph and roughly a mile in altitude.

Student Council President — Georgetown High School

- Led the council to raise over \$23,500 while founding a new club to grow membership.
- Won a Gold National Council of Excellence award and multiple state sweepstakes awards.
- Volunteered consistently across three years of involvement.

SKILLS

Programming & Software: Python, CAD, Revit, Fusion 360, Microsoft Office, Google Drive

Tools & Fabrication: Dial calipers, power tools, multimeters, soldering, laser cutting, 3D printing

Certifications: Revit Certified User, LinkedIn Learning Certified

Languages: English (native), Spanish (conversational)
